

STANTON REGENERATION MONTHLY UPDATE AUGUST 2009

This is the latest monthly update to be produced by us on the Stanton Regeneration site. Updates this month are:

1. Although August is a prominent holiday period, a meeting was held for the Economy Working Group. There is strong officer representation from the Council on these groups to ensure that the development is in the best interests of the local community. The Groups have been set up to facilitate collaborative working and provide feedback to inform the masterplan and planning application being developed for the site. The role of the Groups is to test and challenge the masterplan so far produced, identify gaps in information and evidence and to reach consensus on issues where possible.
2. For reasons of commercial sensitivity and to ensure open discussions between Saint Gobain, Officers of the Council and key stakeholder organisations, the Working Groups are confidential. No Councillors are involved in any of these Working Groups and the decision on the specific proposals for the site will be made by our Planning Committee in accordance with our formal planning application process. This process includes a statutory stage of public consultation. The formal planning application process will not start until the planning application is submitted to us.
3. The Council's website, giving information on the Stanton Regeneration Project and answering frequently asked questions, is available at www.erewashcouncil.com/stanton. Please contact us using the details at the bottom of the page, if you have comments about the website or would like other questions to be answered. The website has been updated to make it easier to find the road options map – this is now available from the home page.
